

Monthly Truck Border Crossings: Mexico → US (2015–2025)

Trade diversion drove sustained increase in cross-border freight traffic

Data represents northbound loaded trucks at major border crossings (Laredo, El Paso, Otay Mesa, Nogales).
Gray line = monthly data; Green line = 3-month moving average.
Growth accelerated after both Section 301 (2018) and Universal (2025) tariff implementations.
